

Let's Do Laundry

- ◆ Get your parents/guardians permission to do this assignment if this is not something you normally do.
- ◆ Have your parents/guardian provide instructions on using the type of washer and dryer you have.
- ◆ See what laundry products you use at your home and read the label information.

1. Preparation and Pre-treating help prevent laundry disasters. Empty pockets, close zippers, straighten out socks, unroll sleeves are a few steps in preparing laundry. The more quickly a spot or stain is treated, (see stain removal chart) the easier they are to remove.
2. Sort laundry into piles according to the "Laundry 101" video and as discussed in class. Don't forget to read the clothing care labels if you're not sure how to wash a item.
3. Put the proper amount and kind of laundry product in the washer for the first load.
4. Choose the correct Wash / Rinse Temperature Cycle. Set water level according to load size.
5. Put one load of laundry loosely (do not pack) in the washer, close lid / door and start the washer.
6. When the cycle is finished, remove the clothes to dry as instructed.
7. READ LABELS BEFORE DRYING. Choose the dryer settings for the load to dry.
8. Watch for the dryer cycle to finish. Remove items promptly and fold or hang. Match socks and other items. Organize and put items away or where your parents instruct.
9. Repeat with two more loads.

STUDENTS: Name three things you had to do or learned about "Doing Laundry".

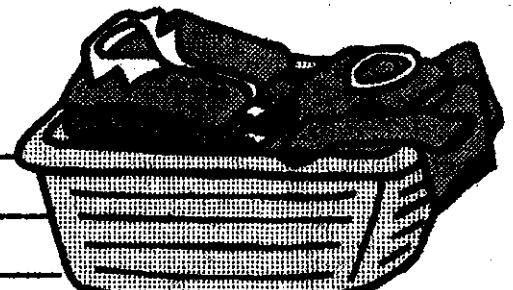

1. _____
2. _____
3. _____

Parents / Guardian: Please fill out the next 3 lines so the student can receive a grade for this assignment. Thank you for your help in teaching them this important life skill.

Parent / Guardian points: _____ (how did she/he do?)
 30 points possible (10 points per load)

Parent / Guardian comments: _____

Parent / Guardian Signature: _____

First Load

What did you wash? _____

What temperature setting? _____

What was the temperature setting on the dryer? _____

Second Load

What did you wash? _____

What temperature setting? _____

What was the temperature setting on the dryer? _____

Third Load

What did you wash? _____

What temperature setting? _____

What was the temperature setting on the dryer? _____
